Professional Experience

Safety-Code

Front-end developer

OCTOBER 2023 - Present

- Started by learning Figma, then converting designs to functional code using HTML, CSS, jQuery, Bootstrap, Sass and Blade Template and responsive to all screens.
- I learned React Js, Typescript, Redux Toolkit, React Router Dom, Axios, and Formik in depth and independently alongside my role at the company to enhance my skills and strengthen my qualifications for the job market.
- I did a range of projects from scratch.
- Developed major projects like E-commerce and Erp System.

Technical Skills

- **Programming language:** *Java Script, Typescript.*
